

## Driver Displays (DDS enabled)

Use the or button to scroll up/down to show one of the displays below. For more details on Driver Displays, please visit [www.se5000.com](http://www.se5000.com).

**Time Left to Drive**  
Time left driving until next activity      Next activity (start of daily rest)

Time left driving view is shown      How long the resting time must be to get more driving time

**Time Left to Rest**  
Driver's current activity (resting)      Time Left Resting until more driving time is available

Co-driver's current activity (available)      Drive time available after this break/rest time

**Overview**  
Driving time since last break/rest      Driver's accumulated break time

Co-driver's current activity      Duration of the co-driver's activity      Local time

**Working Time**  
Indicate that driver information is shown

Working time since last break      Daily working time

Daily break time      Weekly working time

**Speed & Odometer**  
Type of card inserted in tray 1      Current speed

Type of card inserted in tray 2      Odometer

## Driver Quickguide

### Insert your card

①

Press and hold the button marked **1** (if you are the driver) until a card tray pops out. Press **2** if you are the co-driver.

②

Insert the card with the chip facing upwards.

③

Press the card in place in the tray.

④

Close the tray by pushing it gently forward.

The vehicle must be stationary when you insert or withdraw a card.

### Withdraw (eject) your card

①

Press and hold the button **1** if you are the driver. Press **2** if you are the co-driver.

②

The display will ask you to select end country. Use arrow buttons to move to your end country. Confirm by pressing the **OK** button.

③

The tray will open. Press the card underneath through the opening in the tray and the card will pop out.

SE5000-8, 103927P/01R01 EN

STONERIDGE - EVERY ANGLE COVERED

For full details on the SE5000-8 functionality we refer to the Driver & Company Manual or visit [www.se5000.com](http://www.se5000.com)

7. Continue with step 4 in chapter Rest until now? YES.

6. Select and confirm activity Rest. In this example nothing needs to be adjusted.

5. The following is displayed.

Adjust and confirm the time (hour and minute) to when the activity ended.

Adjust and confirm the date when the activity ended (23/11). Default time is set to insertion time.

4. Select and confirm activity Work.

3. The following is displayed. The date and local time is shown for the last card withdrawal.

2. Confirm Add manual entries with YES.

1. Select and confirm NO.

Scenario: You arrived at 15:23, 23/11 and withdrew the card. You performed other work until 17:00 and rested until 20:37, 23/11 when you inserted the card again.

Rest until now? NO

6. You are now ready to drive.

5. Select and confirm YES to confirm the entries or NO to clear or modify entries.

4. Confirm if you want a printout or not.

3. Select and confirm Begin Country for the current working day. Note! Step 2 and 3 will not be used if the time between card withdrawals and insertion is less than nine hours.

2. Select and confirm End country for the last working day.

1. Confirm with YES. inserted when the new working day started.

2. Continue with Rest until now? YES or NO. Note: After time out (1 or 20 min), manual entries are no longer possible.

The display shows the name of the card holder, the date and time for the last card withdrawal and local time/UTC off-set.

1. Insert the driver card and wait until the tachograph processes the driver card data.

During the manual entries procedure you can use the button to move back to previous selection or backwards in display menu before confirming.
